

Concerning LPFM-I am in favor of not changing the rules as I find great value in a national broadcast delivered via translator. It is an invaluable service to have family programming with no commercial interference. Without this service--listeners in our area would be forced to settle for the commercial trash found on the other local stations. I honestly feel the service that K-Love provides will make a huge positive impact on our future generation by giving them a positive influence not available previously. Please do not take away the breath of fresh air among the Howard Stearns, the Janet Jacksons, and the Snoop Dogs of the world.
